

Zotero: Installation Guide

Go to: www.zotero.org/download

You can download the Zotero app for Windows and Mac on the [Zotero download page](http://www.zotero.org/download). The download for the Zotero app is on the left side of the screen. The download file is very small so it will only take a few seconds. After downloading the app, be sure to also install a Zotero Connector for your browser on the right side of the web page you are on. This will only take a second and the browser will include this when it is installed on **Windows**:

Or this, for **Mac**:

Register?

You will see in the upper right corner of **the** www.zotero.org/download page that you can register for an account.

Being a registered user is no longer as important as it was for previous versions. There are advantages for being a registered user allows you to sync and access their library from any PC or Mac and gives up to 300mg of storage to back up downloaded PDFs. Zotero will work fine without registering and without syncing to a cloud account. Further instructions on syncing are in other guides/tutorials

How do I install Zotero?

Windows: Run the setup program you downloaded.

Mac: Open the .dmg you downloaded and drag Zotero to the Applications folder. You can then run Zotero from Spotlight, Launchpad, or the Applications folder and add it to your Dock like any other program.

The app icon for PC and Mac looks like this:
